

WESTERN PACIFIC
REGIONAL BRANCH

**International Geothermal Association/GCES
Joint Technical Seminar
Sichuan Railway Hotel, Chengdu, Sichuan, China
16-18 September 2009
“Geothermal Power Generation Seminar”**

LECTURES: Graeme Beardsmore (Australia):

Exploration for non-conventional geothermal in Australian

Ernst Hugenes (Germany):

Development of non-conventional geothermal reservoir in Germany

Paul Quinlivan (New Zealand):

Geothermal power plant design

This is a teaching course. It is aimed at Geoscientists and Engineers with some knowledge of geothermal science and technology. It will include lectures and practical exercises.

The course fee includes full printed lecture notes, lunches, dinners and banquet. Participants will be expected to pay for their own room accommodation. The course is open to all geothermal professionals living or working in the Western Pacific Region.

GCES has pre-booked accommodation for participants at the venue: Sichuan Railway Hotel. The prices with discount are: standard room \$75; luxury single or standard room \$100; suit room \$140. Please contact GCES office through email for your reservation.

Course Fees: WPRB Members:	US\$ 250
Non Members:	US\$ 350
Students:	US\$ 120

**Please register by contacting GCES office at:
gces@mail.cigem.gov.cn**

**Registrations close 15 August 2009
Numbers are strictly limited to 40 participants: “First come, first served”**

Please note: there is also a separate joint GCES/WPRB Regional Workshop at the same venue on 19-20 September 2009, and a followed Field Trip to Hailuoguo (Trumpet Shell Gorge) to visit hot spring and snow mountain glacier on 21-22 September 2009.
